3. Elementary ed. was first mode free and compulsory

4. Secondary ed. - modest changes were initially made (like University) + later have been abolished.

5. High Quality + Uniformity of Standards
   Public boards unimportant to student.
   Secondary school graduates of any country in West. Europe qualified for any University.

6. Basic differences between our schools and European results from different concept of education.
   To Europeans - advanced education (secondary & university) is not a right of the child but a privilege which must be earned.
