Judge Lewis F. Powell, Jr.
U. S. Supreme Court
Washington, D. C. 20543

Dear Judge Powell:

By statute the State of Texas requires every public high school in the state to teach the essentials and benefits of the free enterprise system. There is a dearth of readily available material. The Texas Bureau for Economic Understanding proposes to publish a paper covered book of readings which will be distributed without charge to those public schools requesting it. Based on requests for other material we publish, we anticipate a demand in excess of 10,000 copies. In addition, we anticipate requests for additional copies from other interested organizations, and we propose to supply such demands at our cost.

The Texas Bureau for Economic Understanding is a nonprofit educational service corporation, chartered in the State of Texas in 1954, and has served students and teachers in Texas since that date. No individual will derive financial benefit from this publication.

We request permission to include THE POWELL MEMORANDUM.

Sincerely,

Leon B. Blair
Executive Director
